Purpose of the Lesson
Students play a Jeopardy game to review: (1) healthy decision-making; (2) family and school rules about medicines; (3) trusted adults. The lesson reinforces the importance of protecting the brain, particularly from the negative consequences of drug misuse.

Background Knowledge
• Only take medicine with the help of a trusted adult.
• Trusted adults examples: parents/caregivers, school nurse, principal, teacher.
• If a choice is unhealthy, unsafe or you’re unsure, you should tell a trusted adult.
• Do not take someone else’s medicine.
  o Don’t know: “Don’t Touch! Don’t Taste! Don’t Take! Tell a Trusted Adult.”

Lesson Objectives
Students will be able to:

<table>
<thead>
<tr>
<th>Objective</th>
<th>Activity/Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Describe a healthy choice and how to make a healthy choice about medicines by involving a trusted adult.</td>
<td>• Jeopardy Review</td>
</tr>
<tr>
<td>2. Describe family and school rules about medicine use.</td>
<td>• Jeopardy Review</td>
</tr>
<tr>
<td>3. Identify safe/healthy and unsafe/unhealthy medication safety situations.</td>
<td>• Jeopardy Review</td>
</tr>
</tbody>
</table>
| 4. Describe how the brain works, reasons to protect our brain and how misusing medicines can be harmful to you and your brain. | • Brain Processing Questions  
  • Protecting my Brain to Keep My Body Healthy Activity Sheet |

Time: 20-30 minutes

Materials
Picture of Brain (Attachment 1); Jeopardy Questions and Answers (Attachment 2); Using my Brain to Protect My Body Activity Sheet (Attachment 3).
Introduction

- Dr. Seuss books can be so much fun because he rhymes his stories. In *Oh! The Places You’ll Go*, he writes:
  - You have **brains** in your head.
  - You have feet in your shoes.
  - You can steer yourself any direction you **choose**.

**ASK:** What do you think Dr. Seuss means?

- Today, we are going to focus on two words from this famous quote: brains and choose.

**ASK:** What do those two words have in common?

Teaching Steps

**Activity 1: Healthy Decisions Protect our Brain**

- Since we are learning about medicines and other substances, we need to use our brains to make healthy choices. Indeed, to make healthy, safe choices about medicines and other substances, we need to use our brains!
- Show the picture of a brain (Teacher Resource Attachment 1).
- **ASK:** What is this? (brain)
- **ASK:** What do you think about all the things your brain does? (jobs your brain does)
  - Write their responses on the board or chart paper. Be sure they included *(helps with breathing, sleeping, heart beating, feelings, learning, thinking, jumping, running, throwing a ball, walking, etc.)* Having pictures of these activities would help the visual learners connect with the concepts.
- **ASK:** How important is your brain? Not very important? Important? Or very Important?
  - **ASK:** Why is your brain so important?
  - **Emphasize** the connection between the brain and the body. *(As noted when discussing what our brain does, we know our brain controls the important functions of our body. Therefore, we must keep our body healthy so our brain can do its job well.)*
  - **ASK:** So, what do you think could happen to our body and our brain if we use medicines or other substances incorrectly? (Doing this could hurt our body and our brain).
  - **ASK:** What could happen if our brains could not do their job correctly? (Our breathing, sleeping, learning, thinking, etc. could be harmed. These body functions could be negatively affected and our body may not be able to work well).

**Activity 2: Choosing Wisely Game**

- Let’s use, as Dr. Seuss would say, “the brains in your head” to play the game **Choosing Wisely**. This game is like *Jeopardy*. There are points you can earn by answering questions correctly. You will be in groups of three or four. I will call on each group to select a question. If you answer the question correctly, you earn the points.
• If a question is answered incorrectly or not answered, I will call on the team that raises their hands first to answer the question. Each team writes their points on a piece of paper and adds all of the points at the end of the game. The team with the most points wins the game. As teams answer a question, cross out the question number on the board.

• Draw a game template on the front board:

<table>
<thead>
<tr>
<th></th>
<th>10 POINTS</th>
<th>20 POINTS</th>
<th>30 POINTS</th>
<th>40 POINTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>1</td>
<td>4</td>
<td>7</td>
<td>10</td>
</tr>
<tr>
<td>2</td>
<td>2</td>
<td>5</td>
<td>8</td>
<td>11</td>
</tr>
<tr>
<td>3</td>
<td>3</td>
<td>6</td>
<td>9</td>
<td>12</td>
</tr>
</tbody>
</table>

**NOTE:** If your students can add tens, feel free to change the value to hundreds.

See Jeopardy Questions and Answers (Attachment 2) for the question/answer sheet for the game.

**Activity 3: Healthy Choices Debrief**

• *We really had to use our brains to answer the questions, didn’t we?*

• *Let’s think back to our discussion before the game, our discussion about the importance of our brains.*

• **ASK:** What do we need to do to be certain our brains are able to work well? Yes, we need to protect our brains with healthy decisions.

• **ASK:** How can we do that? (wear seatbelts, wear bike helmets and other safety equipment, etc.)

• We can also protect our brains by (1) never taking, touching or tasting any substances that could be harmful; (2) taking medicines the right way with the help of a trusted adult; (3) making healthy decisions with medicines by always asking for help from a trusted adult.

**Closure**

• Post and ask students to say with you:
  
  o *You have brains in your head.*
  
  o *You have feet in your shoes.*
You can steer yourself any direction you choose.

CHOOSE WISELY!

Give each student a Ways to Protect My Brain Activity Sheet (Attachment 3)

Ask students to write/draw ways they can protect their brains and complete the statements inside the brain picture. (Could also color their brain picture)

Post these pictures inside classroom as a reminder strategy.

National Health Education Standards

Standard 1: Comprehending Concepts
Standard 3: Analyzing Influences

Healthy Behavior Outcome (HBO)

Alcohol and Other Drugs HBOs:

HBO 1: Avoid misuse and abuse of over-the-counter and prescription drugs.
HBO 4: Avoid the use of illegal drugs.

ELA Standards

SL 2.2 Retell or describe key ideas or details from a text read aloud or information presented in various media and other formats.

Follow-up Activities

Writing prompt: Compare/contrast ways drugs help/hurt brain; sticky note:

Why do I need to protect my brain?
How to protect my brain?
THE BRAIN

<tbody>
<tr>
<td>7. Unhealthy; She needs to take medicine ONLY with a trusted adult’s help.</td>
<td>10. Don’t Touch! Don’t Taste! Don’t Take! (In any order) Tell a Trusted Adult.</td>
</tr>
<tr>
<td>8. A healthy choice is one that is safe and good for your body and your mind.</td>
<td>11. Say, “No.” Tell a trusted adult. WHY: You do not know what the substance is.</td>
</tr>
<tr>
<td>9. HOME: Parent, Caregiver, Grandparent, etc. COMMUNITY: Police Officer, Nurse, Doctor, etc.</td>
<td>12. Say, “No.” Leave and go tell a trusted adult. WHY: Smoking cigarettes can hurt your body.</td>
</tr>
</tbody>
</table>
PROTECTING MY BRAIN TO KEEP MY BODY HEALTHY

DIRECTIONS: Write ways you can protect your brain to keep your body healthy! (Be sure to include rules about medicine and other substances.)

REMEMBER: If you do not know what a substance is …

Don’t T______________________! Don’t T______________________!

Don’t T______________________!

Tell a T_____________________ A_____________________

Attachment 3: Using my Brain to Protect My Body Activity Sheet.
