PURPOSE OF THE MANUAL

The counseling program and staff are an integral part of the College of Health, Education, and Human Services (CHEH). The counseling faculty trains counselors with the basic skills to work in a wide variety of settings such as schools, human service agencies, and community mental health centers. These settings represent sites in numerous counties in Southwestern Ohio. The counseling internship is designed as a culminating experience, in that the student should be able to display essential knowledge, skills, and values in an actual clinical setting.

This manual contains the procedures and requirements relative to the internship experience. The purpose of this manual is to define the responsibilities of the student, site supervisor, and the university supervisor. It is designed for students to use as a guide for planning an internship experience that reflects the goals of the internship experience, and the program objectives for the school counseling program at Wright State University. Included in this manual is an orientation for site supervisors and the forms necessary to begin and complete the internship. The total internship experience is the completion of 600 clock hours (minimum).

PURPOSE OF INTERNSHIP EXPERIENCE

The internship requires the student to utilize the skills and techniques learned in previous coursework. The program coordinator, the specialty field supervisor, and the student will cooperatively determine the exact nature of the internship experience, depending on the learning needs and interests of the student. The internship hours provide a professional experience utilizing all skills and competencies of a counselor in a professional setting.
