Description of Data: The Resident Educator Program in Ohio encompasses a robust four-year teacher development system. The data above show the persistence of Ohio Educator Preparation Provider graduates through the program.

Of note, corrections to prior year reporting may be captured in the current year’s reporting. Examples include:

1. A Resident Educator entering a program year may fail to complete all the program year requirements within the same academic year. Within set parameters, the individual may re-attempt the program year requirements in the subsequent academic year. These rare instances may affect the reported data, for example, showing persistence rates greater than 100 percent for a particular program year.
2. A Resident Educator is not reported for one year, but reported with a record for the previous year and a record for the current year during the current year reporting period. The teacher has completed both years and will be included in both the Entering and Persisting counts for both Residency Years.
