THE SOPP  
STUDENT'S  
PERSPECTIVE

**Diversity**

Culture. I love the emphasis on diversity in this program

I picked SOPP because of its emphasis on diversity and the plethora of opportunities. I most appreciate that SOPP always strives to improve itself. SOPP always aims to back up its claims with actions.

I also appreciated SOPP's commitment to diversity and inclusion by implementing it into the curriculum (something I had not seen other programs do)

Diversity Inclusion in curriculum.

**I picked SOPP because it admitted a smaller cohort number compared to most other PsyD programs. While SOPP picks around 25-30, other programs have anywhere from 50-90. Wright State also offers in state tuition. No other PsyD program that I was aware of offered this so, I am very appreciative of this. I also think Dayton is a very cool and unique place that has a lot to offer.**

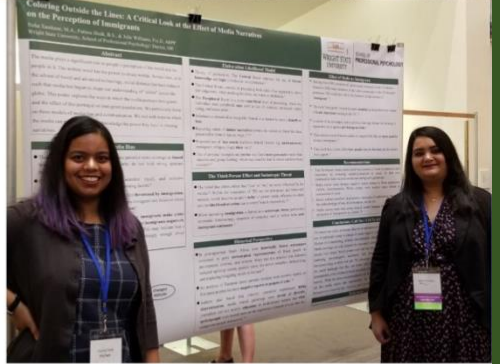

**I picked it because of the cost of living in this area. I was losing hope about programs saying that they value social justice so I thought it was just another gimmick. But SOPP talks the walk. I'm glad I joined.**

**Wide range of practicum sites that fully prepare you for internship and early career positions in whatever field of Psychology you choose.**

**The second family that it has given me. ❤️**

**I LOVE THE FACULTY AT SOPP. THEY ARE SUPER SUPPORTIVE IN WAYS THAT I HAVE NEVER HAD BEFORE IN SCHOOL OR COLLEGE.**

**SOPP is an amazing organization to be a part of because everyone is extremely welcoming, understanding, personable, and knowledgeable. You never feel like an outsider in SOPP! One thing I appreciate most is that I never feel alone or unsupported and that is because SOPP gives you not only the resources, but the people to back up the resources to always make you feel heard and supported.**

**FLEXIBILITY OF FACULTY!**

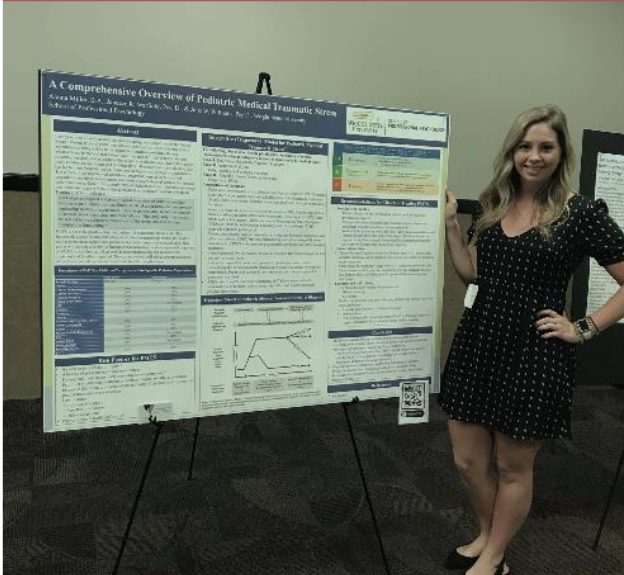

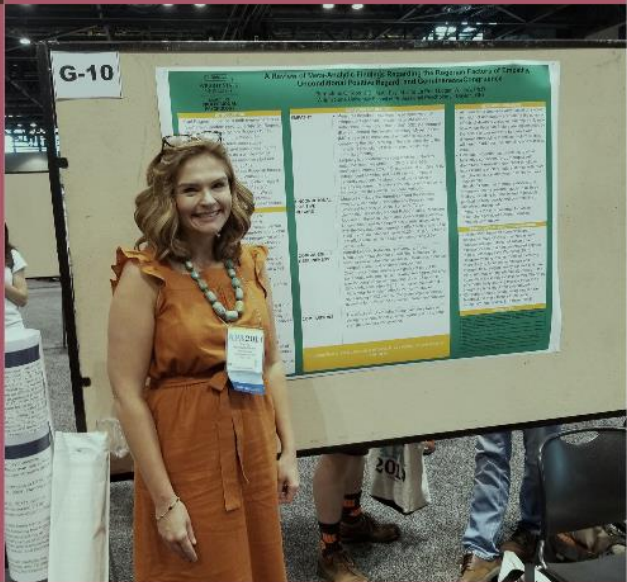

**FACULTY SUPPORT DURING THIS JOURNEY!**

1. Affordability.
2. Location. I went here for undergrad and it's close to home.
3. Professors. There are professors here that caught my attention with their interests, and I have met some wonderful mentors in my time here so far.

4. Graduation rate.
5. Class size. The class size is small enough that there is definitely a one on one feel with professors.
6. Clinical focus, rather than a research focus.

7. Ideal generalist track and also able to be a part of different emphasis teams.
8. The possibility for scholarship.
9. The emphasis on community, and leaning on each other. This is a doctorate program, but the faculty still genuinely care about the students and their well being.
